

Delock Tablet and Laptop Stand Holder adjustable aluminium - 360° rotateable

Description

This stand by Delock not only impresses with its design, but also with its **stability and function**. Thanks to the adjustable angle, the tablet or laptop can be placed in any position and **remains stable**. The **rubber pads** attached to the bottom side and in the holder ensure that neither the device nor the holder slips.

Ideal even for longer video calls or series marathons

Thanks to the recess in the holder, the tablet can also be charged while it is upright. This makes the holder **ideal for long Facetime or Skype video calls, as well as for a series marathon**.

360° rotateable

While the base stands firmly and securely, the upper part can be rotated through **360°**, making it easier to present images or similar material, for example.
