Mows up to the edge of the lawn

- The lawn combs automatically catch the grass growing right up to the edge.

Large grass catcher container

- Its large volume means it has to be emptied less frequently, letting you work without any interruptions.
- The textile catcher container can be folded down extremely small and takes up very little space when stowed on the lawn mower.

2-in-1 mowing system

- The cut grass is efficiently collected in the grass catcher container during mowing.
- Mulching function: By using the mulching kit, the cut grass is spread over the lawn as natural fertiliser.
- Sharpened steel blade for clean cuts without any jagged blades of grass.
