Type-C Design

Compact design tailored to fit in/alongside
other devices with no adapter needed.

ELITE-X FIT TYPE-C USB 3.2 FLASH DRIVE

The PNY Elite-X™ Fit Type-C USB 3.2 Flash Drive offers the ultimate solution for freeing up space and transferring files between USB Type-C devices. With advanced read speeds of up to 200MB/s and write speeds up to 100MB/s, the Elite-X Fit Type-C is up to 30x faster than standard PNY USB 2.0 Flash Drives. Enabling users to easily transfer photos, videos, music, and more from mobile Type-C devices such as smartphones and tablets to full size devices such as PC & Mac laptop and desktop computers, ensuring they never miss capturing important content due to limited memory. Forget the inconvenience of needing an adapter with your type-C device, PNY's modern low-profile design leaves your other ports available while your Elite-X Fit Type-C flash drive connects directly with your Type-C device. The USB 3.2 Type-C connector is compatible with various operating systems and host devices allowing users to expand their storage and manage files effortlessly across multiple Type-C devices. Backwards compatible with USB 3.1 Gen 1/USB 3.0 and USB 2.0 equipped PC and Mac desktop and laptop computers. Designed with convenience and portability in mind, enjoy fast transfer and storage of large files and demanding applications in a compact micro-sized design.^{2,3}

- PNY Elite-X Fit Type-C USB 3.2 Flash Drive is the ideal mobile storage solution for easy and quick file management with your USB Type-C devices
- Exceptional performance with read speeds of up to 200MB/s and write speeds up to 100MB/s²
- Compact, low-profile housing with a sliding design, to leave other ports available in a modern and portable design

-----------------	--

¹For Flash Media Devices, 1 megabyte = 1 million bytes; 1 gigabyte = 1 billion bytes. Actual useable capacity may be less than total listed (some capacity is used for formatting and other functions, and thus is not available for data storage).

²Noted speed requires USB 3.2 Gen 1/USB 3.0 devices (speed may be lower with earlier generation host devices). Performance and photo/video support (eg, "full HD") may vary depending on the host devices, user's settings and configurations.

³Mobile device with OTG (On-The-Go) support required.
