TVS-DESK-01-BK

Mobile lecture desk with caster wheels

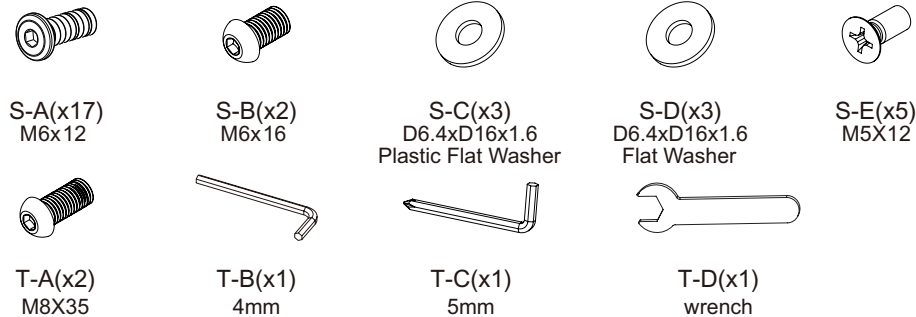

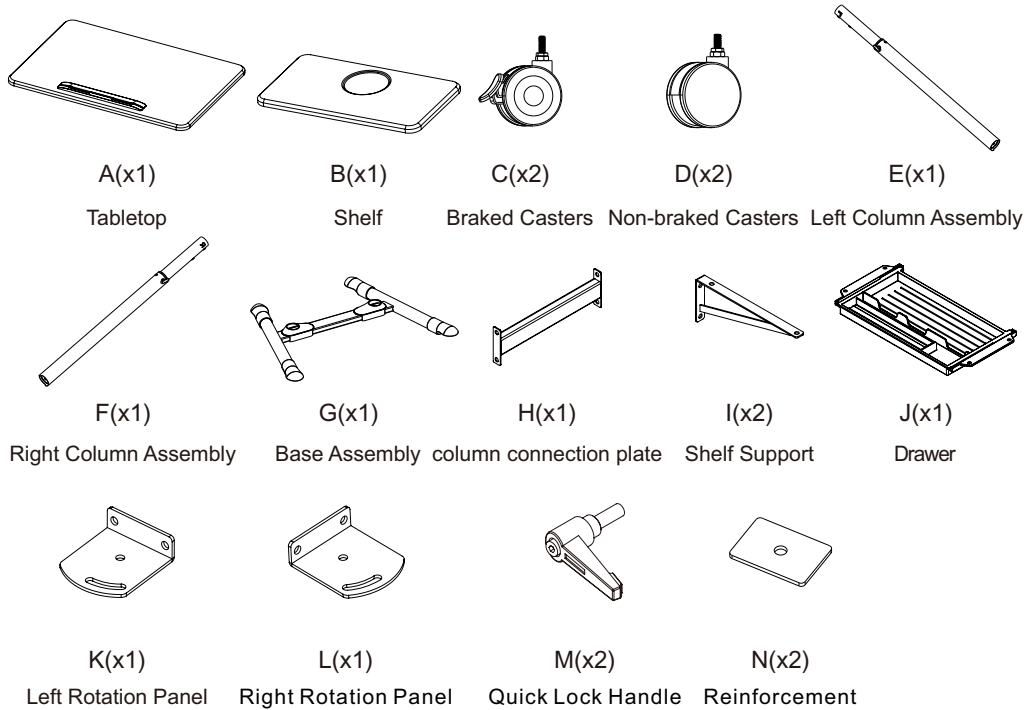

★ Thank you for choosing our products please read the instructions carefully before installation, and please keep the instructions properly

Tips and tricks

1. Do not attempt to move this furniture without first removing all equipment
2. Death or serious injury may occur when children climb on audio and/or video equipment furniture. A remote control or toys placed on the furnishing may encourage a child to climb on the furnishing and as a result the furnishing may tip over onto the child.
3. Please contact us using the details shown for further advice

⚠ **WARNING** If any parts are missing or damaged, do not return the damaged item to your dealer; contact Customer Service. Never use damaged parts!

Package content

The max loading weight should not exceed this weight.

Exceeding this weight can damage the product and create safety hazards.

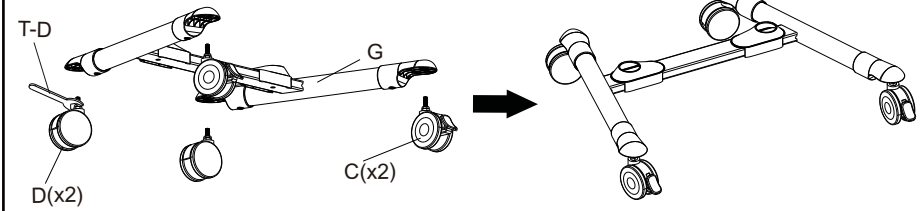

Installation Steps

Step 1

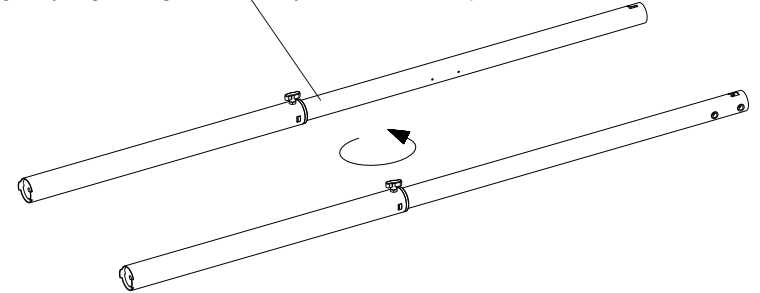

Install the 4 casters onto the base assembly (G), using a (T-D) wrench to tighten the 4 casters in a clockwise direction.

Note: The braked casters should be installed at the front, while the non-braked casters should be installed at the back, as shown in the figure below.

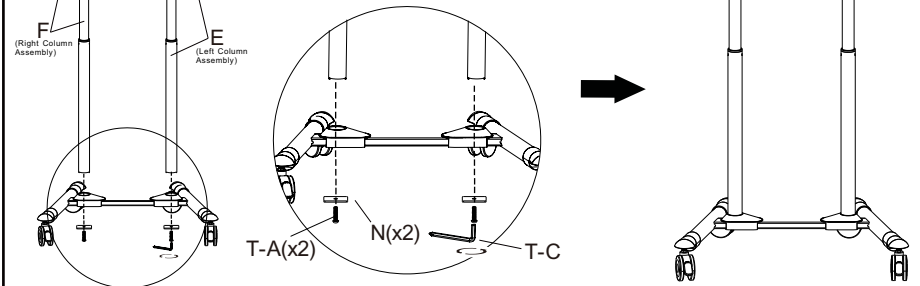

Step 2

Rotate the rotary knob on the column counterclockwise, and adjust the column height by regulating the one-way knob for subsequent installation.

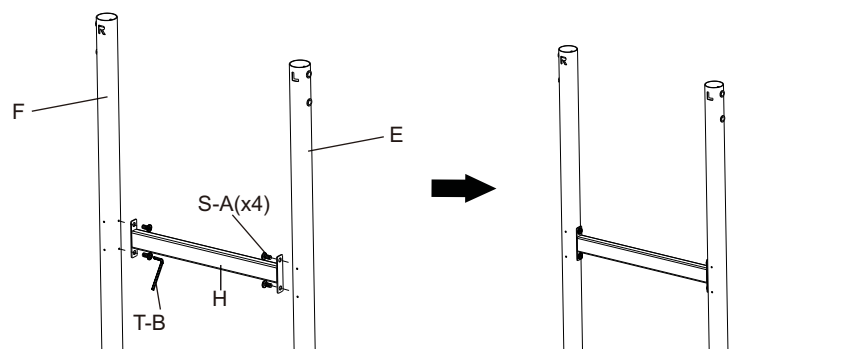

Step 3

Place the left column assembly (E) and the right column assembly (F) into the base's limit positioning round holes, with reinforcement plates placed at the bottom. Align the (T-A) screws with the center holes, and use a (T-C) wrench to tighten the (T-A) screws in a clockwise direction.

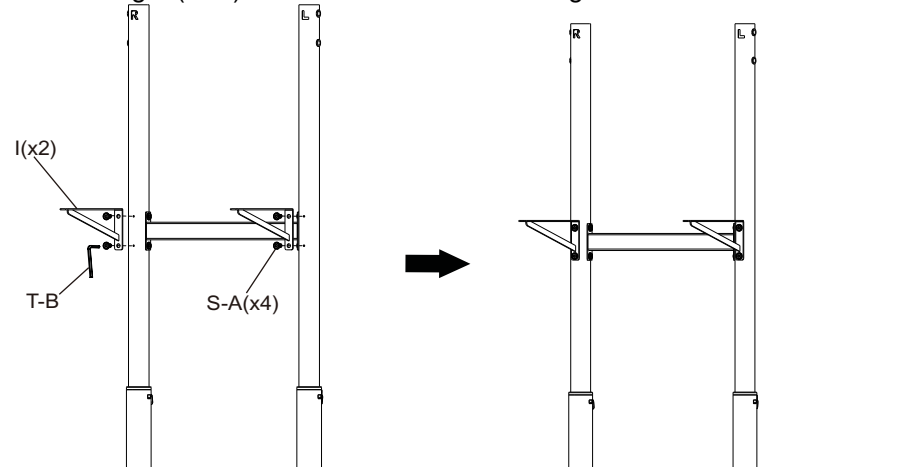

Step 4

Install the column connection plate (H), align it with the inner holes of the left and right columns, and tighten the four (S-A) screws using a (T-B) wrench as shown in the figure.

Step 5

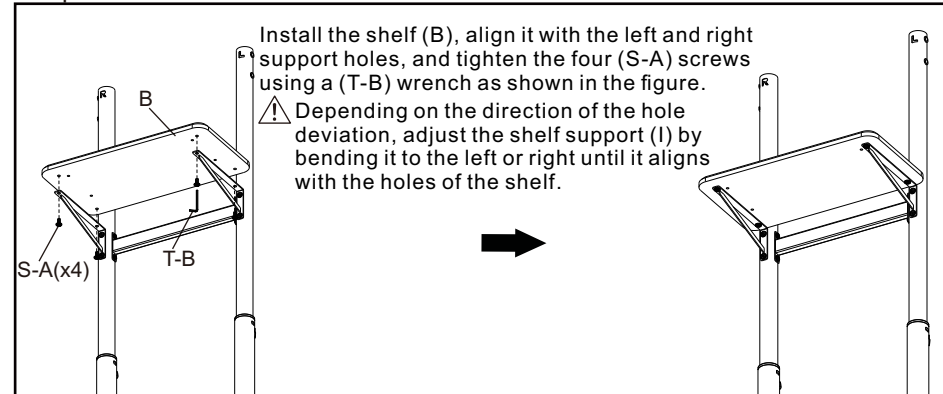

Install the shelf support (I), align it with the front holes of the left and right columns, and tighten the four (S-A) screws using a (T-B) wrench as shown in the figure.

Step 6

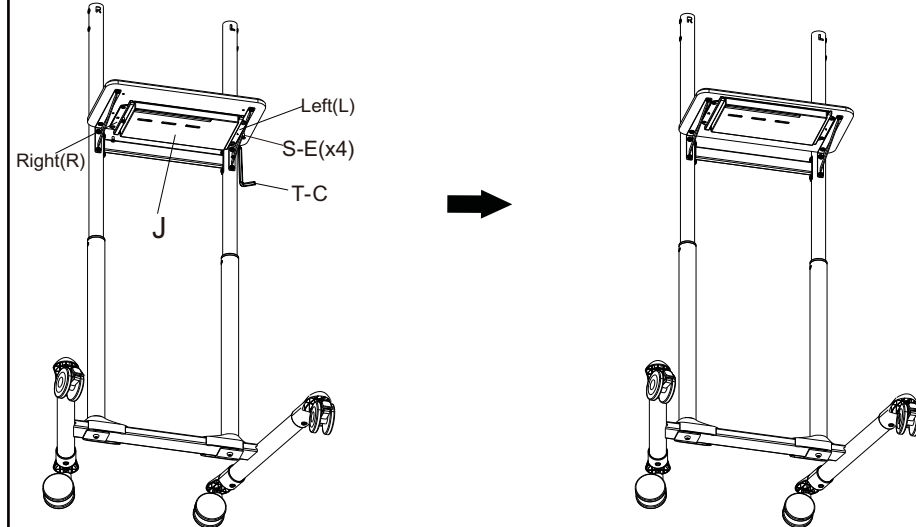

Install the shelf (B), align it with the left and right support holes, and tighten the four (S-A) screws using a (T-B) wrench as shown in the figure.

⚠ Depending on the direction of the hole deviation, adjust the shelf support (I) by bending it to the left or right until it aligns with the holes of the shelf.

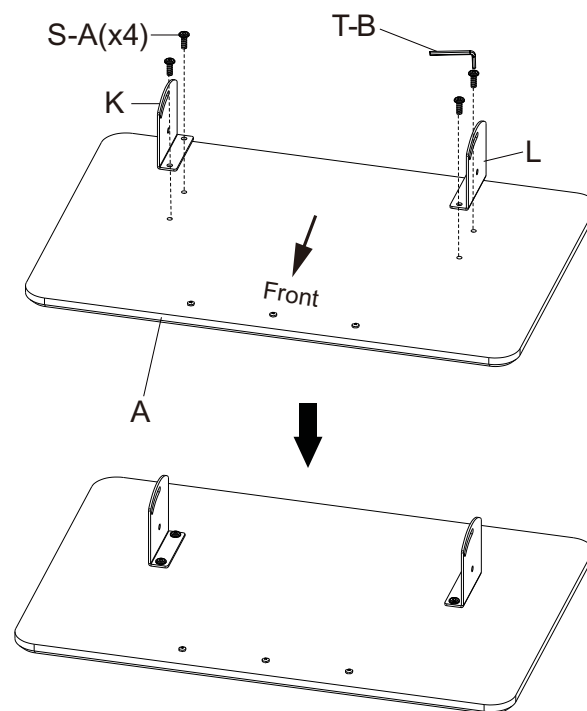

Step 7

Install the drawer (J), align it with the left and right holes below the shelf, and tighten the four (S-E) screws using a (T-C) wrench as shown in the figure.

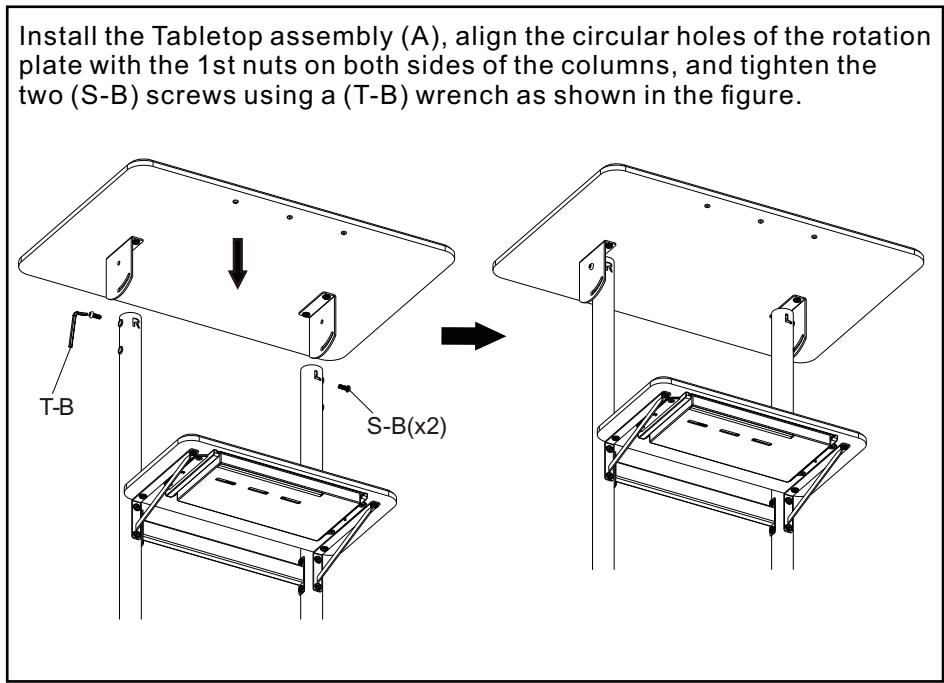

Step 8

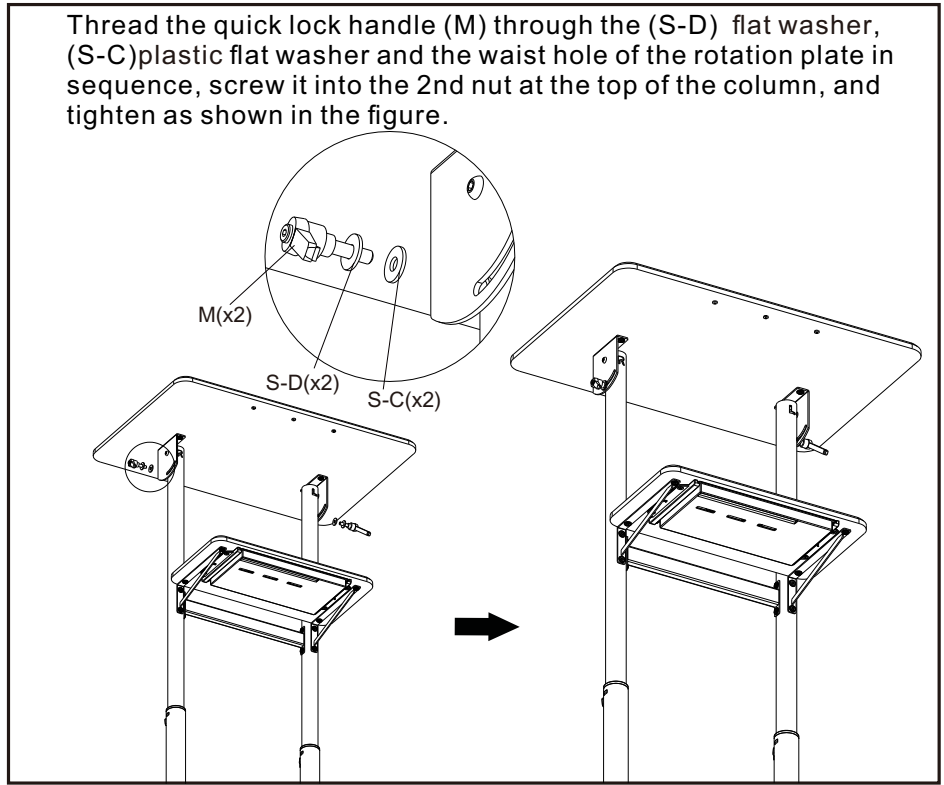

Install the left and right rotation plate (K) and (L), ensuring that the arc slots of the rotation plate face the front, align with the embedded nut holes of the shelf, and tighten the four (S-A) screws using a (T-B) wrench as shown in the figure.

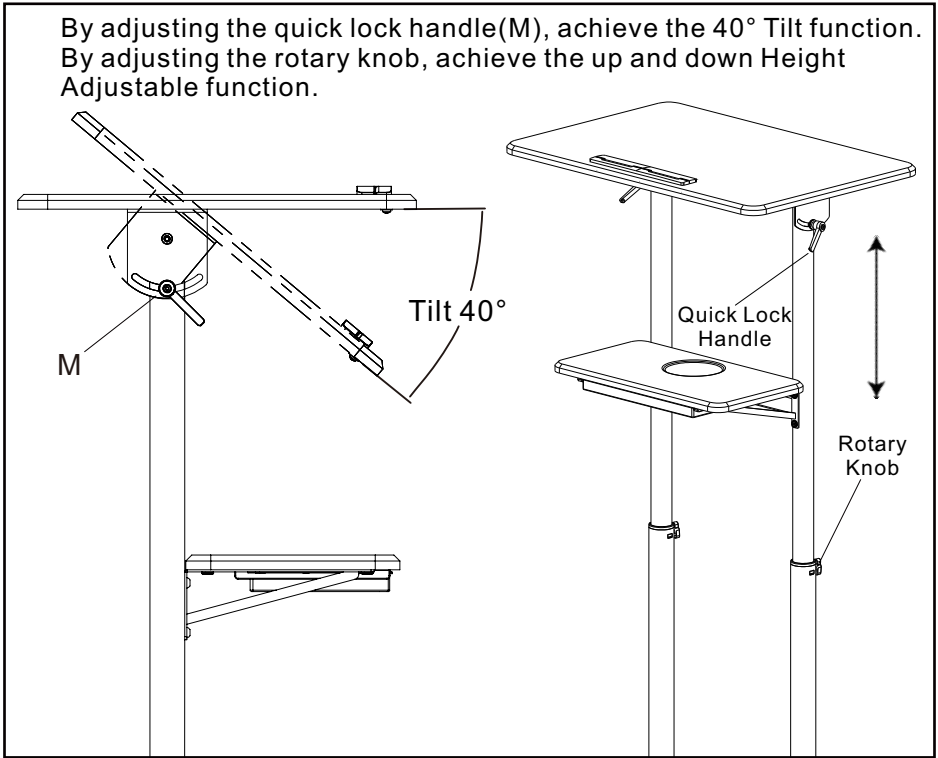

Step 9
