1.0 INSTRUCTION

1.1 SAFETY INSTRUCTIONS

Read all of the instructions before operating the set. Keep these instructions well for later use.

- Only use attachments/accessories specified or provided by the manufacturer (such as the exclusive supply adapter, battery etc.).
- Please refer to the information on the exterior back enclosure for electrical and safety information before installing or operating the apparatus.
- To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.
- The ventilation should not be impeded by covering the ventilation openings with items, such as newspaper, table-cloths, curtains, etc.
- The apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.
- The mark  indicates a risk of electric shock. The external wires must be installed by an instructed person or ready-made leads or cords must be used.
- To prevent injury, this apparatus must be securely attached to the floor/wall in accordance with the installation instructions.
- Danger of explosion if the battery is incorrectly replaced. Replace only with the same or equivalent types.
- The battery (battery or batteries or battery pack) shall not be exposed to excessive heat such as sunshine, fire or the like.
- Excessive sound pressure from earphones and headphones can cause hearing loss.
Listening to music at high volume levels and for extended durations can damage one's hearing.
- In order to reduce the risk of damage to hearing, one should lower the volume to a safe, comfortable level, and reduce the amount of time listening at high levels.
- The mains plug or appliance coupler is used as disconnect device, it shall remain readily operable. When not in use and during movement, please take care of the power cord set, e.g. tie up the power cord set with cable tie or something like that. It shall be free from sharp edges or similar which can cause abrasion of the power cord set. When put into use again, please make sure the power cord is not damaged. In case of damages, please get the power cord replaced by a similar one with the same specifications. The absence of a light indication on the apparatus does not mean that it is fully disconnected from the mains. To disconnect the apparatus completely, the mains plug must be pulled out.
- Attention should be drawn to environmental aspects of battery disposal.
- No naked flame sources, such as lighted candles, should be placed on the apparatus.
-  To prevent the spread of fire, keep candles or other open flames away from this product at all times.
- A USB terminal can provide a maximum of 500 mA.
-  Equipment with this symbol is a Class II or double insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earth.

Operating Environment

- Do not install this equipment in a confined space such as a bookcase or similar unit.
- Do not use the set near damp, and cold areas, protect the set from overheating.
- Keep away from direct sunlight.
- Do not use the set near dust place.
- Do not attach candle to accessible opening area, to avoid flammable foreign material from entering the TV.

WEEE Directive

 Correct Disposal of this product. This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal,  recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.

1.2 STORAGE

Your device has been carefully checked and packed before shipping. When unpacking it, make sure that all the parts are included and keep the packaging away from children. We recommend that you keep the carton during the warranty period, to keep your device perfectly protected in the event of repair or warranty.

1.3 ACCESSORIES

- 1x installation instructions
- 1x safety instructions/warranty cards
- 2 x Feet standards including screws
- 1x remote control
- 2x AAA batteries
- 1 x Power adaptor 12Volt-4Amp
- 1 x Main power wire 230V
- 1 x Cigarette car adaptor 12Volt

1.4 EQUIPMENT SET-UP

Fig. 1

Install the display on a solid horizontal surface such as a table or desk. For ventilation, leave a space of at least 10 cm free all around the set. To prevent any fault and unsafe situations, please do not place any objects on top of the set. This apparatus can be used in tropical and/or moderate climates.

Stand assembly instruction

1. Carefully place the TV with its front side facing down on a cushioned flat surface in order to protect the TV and the TV screen from damage.
2. Take out the 2x feet and assemble them to the TV.
3. Fasten the feet to the bottom of the TV using the 4xPA4x14mm screws.

NOTE: Clean the screen with a soft, dry cloth after switching off and unplugging the television and avoid glass sprays and other household cleaning agents.

This user manual provides complete instructions for installing and using this TV. The symbols serve as follows.

- WARNING** Indicates warning information.
- NOTE** Indicates any other additional important or helpful information.
- MENU** Represents a button on the remote control or the TV.
- Move to* Represents a menu item within a window.

2.5 INSTALLING THE BATTERIES

Fig. 5

Place 2x AAA batteries in the battery compartment of the remote control. Make sure to match the polarity markings inside the compartment.

NOTE: Pictures are only for reference. Actual items may differ.

1. Open the cover.
2. Put 2x AAA batteries in the compartment and make sure the polarity is correct.
3. Close the cover.

Precautions for using the batteries

Improper using of the battery will cause leakage. Carefully follow these instructions.

1. Please note the batteries' polarity to avoid short circuit.
2. When the battery's voltage is insufficient which affect the use range, you should replace it with a new battery. Remove the batteries from the remote control unit if you do not intend to use it for a long time.
3. Do not use different types of batteries (for example Manganese and Alkaline batteries) together.
4. Do not put the battery into fire, and charge or decompose the battery.
5. Please dispose batteries abide by relevant environmental protection regulation.

2.6 USING THE REMOTE CONTROL

- Use the remote control by pointing it towards the remote sensor. Items between the remote control and the remote sensor could block normal operation.
- Do not cause the remote control to vibrate violently. Also, do not splash liquid on the remote control, also do not put the remote control in a high humidity place.
- Do not place the remote control under direct sunlight which will cause deformation of the unit by heat.
- When the remote sensor is under direct sunlight or strong lighting, the remote control will not work. If so, please change the lighting or TV's position, or operate the remote control closer to the remote sensor.

3.0 FIRST TIME INSTALLATION

After all connections have been properly made, switch on your TV. The welcome wizard appears on screen and confirm with **OK** to start the installation. The language selection will appear on screen. Use **▲▼** to select the OSD Language of your preference. Press **►** and then use **▲▼** to select the country where you will use this TV. This is important to set setting as text character correctly. Press **►** to change Environment from Home to Shop modus to demonstration TV in shop, otherwise keep as it is. Press **►** and then use **▲▼** to select the Antenna / Tuner type you are using for reception. Press **►** for next step to go to Tuning setup. If you like to make change, use **►** to go step back in this wizard.

In Antenna Type selection you select which tuner input source you like to use.

Air to receive terrestrial broadcasts with indoor or outdoor antenna.

Cable to receive cable broadcasts if you have cable connection.

Satellite to receive satellite broadcasts if you are equipped with a satellite dish.

Next step is depending of your choice in Tuner setup.

3.1 AIR > DVB-T/T2 INSTALLATION

Directly when you select *Air* and press ► button. Auto channel searching for channels is started. Just wait until all channels are found. Now you can enjoy digital Tv.

<i>Power On Logo</i>	Press ENTER to select between <i>On</i> or <i>Off</i> modes. To display boot logo after switch TV to On.
<i>Default</i>	Press ENTER and PIN to restore all settings back to default. Selection can be made to keep current channel list or delete this as well.
<i>Installation Guide</i>	This option allows you to perform the First Installation again. Select <i>Start</i> pressing ENTER . Now you will reset all the settings contained in the main menu and deleted all installed channels. TV will go back to First Time Installation. See chapter 3.
<i>Software Version</i>	Find here the details of the installed software version.

Software Update (USB) If a new software release for this model is available on our website and you have copied the unzipped file to an empty USB device, formatted in FAT32, you can upgrade the system software of this TV. After successfully update a message appears on screen. Power off by removing the main power connector. Remove USB device and power ON.

NOTE: NEVER disconnect the USB device from the TV, the TV from the main or switch OFF power during the update procedure. It can damage your device and warranty will void!

5.7.1 HDMI CEC

HDMI_CEC Select this item and Press ENTER. Press ◀▶ to turn the HDMI CEC control On or Off

ARC Press ◀▶ to turn the Audio Return Channel On or Off.

Auto Standby Press ◀▶ to turn on this feature. When finished turn off your TV. The connected device will turn off automatically.

Auto Power On Press ◀▶ to select this option. When you switch On connected device it will turn on the Tv automatically.

Device List Press ENTER to open the main menu of connected HDMI device(s).

6.0 MEDIA

1. Some USB storage devices may not be compatible to operate smoothly with this TV.
2. Back up all of the data in the USB storage device in case data is lost due to an unexpected accident. STRONG does not assume any liability for the losses by misuse or malfunction. Data backup is consumer's responsibility.
3. For large file sizes, the loading speed may be slightly longer.
4. The recognition speed of a USB storage device may depend on each device.
5. When connecting or disconnecting the USB storage device, make sure the TV is not in USB mode otherwise the USB storage device or the files stored in it may be damaged.
6. Please use only a USB storage device which is formatted in FAT32, NTFS (playback only) file system provided with the Windows operating system. In case of a storage device formatted as a different utility programme which is not supported by Windows, it may not be recognized.
7. For Software Updates and Database functions it is recommended to use USB-Sticks (keys) in FAT32.
8. When using a USB Hard Disk Drive which is not powered independently, ensure its power does not exceed 500 mA. Otherwise the TV system will change into standby mode, and you must pull out the USB Hard Disk and restart the TV system.
9. An "Unsupported File" message will be displayed if the file format is unsupported or the file is corrupted.
10. FHD big picture needs longer time to process, which is not caused by the TV. Please be patient.
11. This TV may not support some multimedia files changed and upgraded as the change of the encoding format or other technical aspects advances.
12. Please refer to chapter 9. **Appendix** for a list of supported file formats for USB playback.

6.1 USB MENU

Press **SOURCE** and select *Media* or press DMP button.. You can view movie, music, photo and text files from your USB storage devices. Connect a USB storage device to the USB input terminal and select the types of media on the home page: *Movie*, *Music*, *Photo* and *text*. Press **ENTER**, the screen will show the connected USB device, press **ENTER** again to view the file folders and files. Press ▲▼ or ◀▶ to select a folder, press **ENTER** to open the folder and select the files. Highlight the one you want to play or watch or press directly ▶ II to start playing directly. Press ■ to stop playing and return to upper level folder. Continuously press **EXIT** to go back to upper level folder. Repeat again to select and play another media type.

NOTE: By choosing one of the three media types, for example *Movie*, the folders inside will display only video files and no other formats.

6.2 PLAY MUSIC

During playback, press **INFO** or **ENTER** to display/exit the menu bar. Press the **USB control buttons** on the remote control to do relevant operations.

Play & Pause/Stop/Prev./Next

Press ▶ II to play or pause the playback. Press ■ to stop playing. Press ◀▶ to play the previous or the next video file. Press **INFO** and use ◀▶ to highlight the corresponding icon on the control bar, then press **ENTER**. The TV will response accordingly.

Fast Reverse/Fast Forward

Press and hold ◀▶ for seconds to draw the playing progress as your desire, then press ▶⏸ to start the playing from the new position.

Play Mode

Highlight the corresponding icon and press **ENTER** to switch to another play mode.

Information

Highlight the corresponding icon and press **ENTER** to view the information of the playing video.

Zoom in/out

Highlight the button and press **ENTER** to change the display mode.

6.3 PLAY MUSIC

Press **INFO** or **ENTER** to display/exit from the menu bar. Press the **USB control buttons** on the remote control to do relevant operations.

Play & Pause/Stop/Previous/Next

Press ▶⏸ to play or pause the playback. Press ■ to stop playing. Press ◀▶ to play the previous or the next music file. Press ◀▶ to highlight the corresponding icon on the control bar, and then press **ENTER**. The player will response accordingly.

Fast Forward/Fast Reverse

Press and hold ◀▶ for seconds to draw the playing progress as you wish, then press ▶⏸ on the remote control to start playing from the new position.

Repeat

Highlight the icon and press **ENTER**. You can select 3 different modes: *None* to disable the function, *1* to repeat one track only and *All* to repeat the entire list once it is finished.

Information

Highlight the icon and press **ENTER** to check the information of the playing music.

NOTE:

- If one (or more) file(s) of the play list is selected, the buttons ◀▶ will play only selected files.
- This menu only shows supported files.
- Files with other file extensions are not displayed, even if they are saved on the same USB storage device.
- An over-modulated mp3 file may cause some sound distortion during playback.
- This TV supports lyrics display (in English). The maximum number of characters per line is 48.
- The file name of music and lyrics must be the same in order to display lyrics while the music is playing.
- If you want to show the associated lyrics on the screen with the music, you must store these in the same folder using the same file name with ".lrc" file extensions.

6.4 BROWSE PHOTOS

Press during viewing **INFO** or **ENTER** to display/exit from the menu bar. Press the **USB control buttons** on the remote control to do relevant operations.

Play & Pause/Stop/Previous/Next

Press ▶⏸ to play or pause the playback. Press ■ to stop playing. Press ◀▶ to show the previous or the next picture. Press ◀▶ to highlight the icon on the control bar, and then press **ENTER**. The TV will response accordingly.

Repeat

Highlight the icon and press **ENTER**. You can select 3 different modes: *None* to disable the function, *1* to repeat one track only and *All* to repeat the entire list once it is finished.

Info

Highlight the button and press **ENTER** to check the information of the shown photo.

Rotate

Highlight the icon in the menu bar and press **ENTER** to rotate the picture 90 degrees clockwise or counter clockwise.

Zoom In/Zoom Out

Highlight the icon on the menu bar and press **ENTER** to zoom in or zoom out of the image.

Move View

When the image is magnified, use this function for convenient check. Highlight this icon, press **ENTER**, then press ◀▶▲▼ to move the image.

NOTE:

The move function ◀▶▲▼ is only available when the image is enlarged.

6.4.1 BROWSE TEXT DOCUMENTS

Press ◀▶ to select *Text* in the main menu. Then press ◀▶ to select the drive disk you choose to watch and **ENTER** to enter. Select the file you want to display by using ▲▼◀▶ and confirm with **OK**. Quit step by pressing **ENTER**. Press ◀▶ to select *return* and go back to previous menu.

6.4.2 SOFTWARE UPDATE VIA USB

From time to time you can check if there is an improved software version available. This can be viewed and downloaded from our website www.strong-eu.com. Search the model number on our website's service support section. If there is an improved software version you can download the file and copy it to the root of a USB device. Then press **▲▼** button to select *Software Update (USB)* from the Option menu on your TV. Plug your USB device into the USB slot and press **ENTER** to update the respective software. Confirm with Yes using **◀▶**. When the update is completed, remove the USB stick, disconnect your device from the main power supply and plug in again.

7.0 TROUBLESHOOTING

There maybe various reasons for abnormal operation of your TV set. Check your TV set according to the general procedures shown below. Additionally, we strongly recommend reading the detailed troubleshooting of your TV set in the full user manual available on our website www.strong-eu.com. If your TV set does not work properly after checking the general and detailed troubleshooting, please contact your dealer, the local Service Hotline, or send an email to our support via www.strong-eu.com. DO NOT try to open or disassemble your TV set. It may cause a dangerous situation and the warranty will be void.

Problem	Possible cause and solution
The LED/Standby indicator does not light up	1. Check whether the power connector is completely plugged at the TV and into power socket. 2. Make sure that the switch on multipoint connectors is switched ON as well. 3. The electrical outlet may be damaged. 4. STBY LED is defective.
No Signal	1. The TV is not connected to a signal source (DVB-C, DVB-S/S2 or DVB-T/T2) or the antenna (terrestrial or satellite antenna) is maybe not aligned correctly respectively the according connection and distribution equipment might show malfunction, incompatibility or defectives. 2. DVB-T/T2: Active antennas need antenna power switched ON or external power connected. Antenna is maybe out of digital signal reception in your area. Check reference from service providers about coverage. 3. DVB-S/S2: Incorrect values of some tuner parameters (e.g. one or some channel(s) changed to another transponder or are no longer emitted). Incorrect values of LNB parameters.
The picture and sound remain frozen, or macro blocks or similar distortion are visible on the screen.	DVB-S/S2,DVB-T/T2: The reception signal is too weak or disturbed by electromagnetic, high-frequency, or other interference signals. DVB-T/T2 : Disturbances caused by signal reflections. DVB-C, DVB-S/S2: The connection cables at the signal source are too long (too high attenuation). DVB-T/T2, DVB-S/S2: The antenna is not properly adjusted or got misaligned after storm etc.
Any other reception or signal related problems	1. Generally cables might have loosened. Moisture might have entered into cables or connectors. There is heavy rain or heavy storm at present (DVB-S/S2 and -T/T2). Check the cable connections. DVB-S/S2 and -T/T2: Check all equipment connected between the reception point and the TV. 2. Wait until heavy rain/thunderstorm passed. If no solution ask a local satellite specialist for advice. DVB-S/S2: The satellite dish is NOT aligned to the (correct) satellite(s). Ask a local satellite specialist for advice. 3. DVB-S/S2: Satellite dish is too small. Trees or buildings are in path. Ask a local satellite specialist for advice. 4. DVB-S/S2: Signal is too strong, maybe need to be attenuated. Ask a local satellite specialist for advice.
No colour	1. Devices are not properly connected (scart, RCA sockets) or wrong/bad cables are used. 2. Adjust the saturation. 3. Switch TV on another channel. It is possible that the current programme is broadcast in black and white.
No picture, normal sound	1. Adjust the brightness and contrast 2. Radio channel is tuned to or the programme is not transmitting Video signals or another broadcasting interference/failure.
Normal picture, no sound	1. Press the volume up button to increase the volume level. 2. Audio is muted, press 🔊 to restore the sound. 3. If external devices are used to loop the sound through, make sure to select correct sources and correct sound mode, for details also check advices in User Manuals from connected devices 4. Maybe a channel w/o audio is tuned to (demo) or the programme is not transmitting audio signals or there is some other transmission interference/failure.

Problem	Possible cause and solution
Playback of video is causing picture freeze/macro blocks or similar distortion, especially on HD content.	Read/write speed of your USB device could be too low. Make sure to use a USB storage device with sufficient speed and space. Pen drives (USB sticks) may not support sufficient speed.
The remote control does not work	1. Change the batteries. If you're using rechargeable ones take care to use such with low self-discharge 2. The batteries are not installed correctly or the types have been mixed 3. IR Sensor is blocked or maybe interfered from bright light
The TV switches off after a certain time	Switch ON the TV and check settings for automatic STBY function, by default the TV switches OFF after 4 hours to fulfil European low power regulations and help you to save energy.

NOTE: If the problem persists after these solutions, please contact your local support centre or send a support mail via our website www.strong-eu.com.
