

Intellinet 19" Rackmount 16-Port USB-A Power Distribution Unit (CEE 7/7), With Overload Protection Power Switch, 2.1 A Max. per Module, 2m Power Cord (Euro 2-pin plug)

Brand : Intellinet

Product code: 164580

Product name : 19" Rackmount 16-Port USB-A Power Distribution Unit (CEE 7/7), With Overload Protection Power Switch, 2.1 A Max. per Module, 2m Power Cord (Euro 2-pin plug)

- 19" 1U rackmountable USB power distribution unit
- Bracket installation style: front
- 16 USB type-A sockets
- aluminium chassis
- Overload protection switch
- Three-year warranty

19" Rackmount 16-Port USB-A Power Distribution Unit (CEE 7/7), With Overload Protection Power Switch, 2.1 A Max. per Module, 2m Power Cord (Euro 2-pin plug)

Intellinet 19" Rackmount 16-Port USB-A Power Distribution Unit (CEE 7/7), With Overload Protection Power Switch, 2.1 A Max. per Module, 2m Power Cord (Euro 2-pin plug):

The Intellinet Network Solutions 19"; Rackmount 16-Port USB-A Power Distribution Unit (PDU) provides reliable power distribution via a single input to multiple output receptacles. Designed for installation at the front of a 19"; network rack, this PDU provides easy access to power up to 16 portable electronic devices. The PDU distributes 2.1 amps of power to each port to support the fast-charging of each connected device. Simply connect devices to the Intellinet Network Solutions 19"; Rackmount 16-Port USB-A Power Distribution Unit with compatible USB-A cables and devices will charges safely and securely in the rack.

Design		Power
