Clean design

White, compact and fits most environments.

These inks don't run

It uses UltraChrome XD2 pigment inks which means your prints are smudge and water resistant (whereas standard dye inks may run). Also, the SC-T5100N delivers deep blacks and crisp, dense lines — ideal for technical graphics.

Supports wireless printing

Enables users to print directly from smartphones or tablet devices.

Seamless paper changes

Change seamlessly between LFP roll and sheetfeed as this printer supports A4 up to A0 cutsheets as well as rolls.

Peace of mind

Unique Nozzle Verification Technology (NVT) helps prevent misprints.

Accuracy and precision

Print technical, architectural and engineering drawings in great detail, with ease.
