HOW TO FULLY ENJOY CARE FOR YOU FIRST ?

STEAM

10 min: Light and fast dewrinkling.
20 min: Optimal dewrinkling for most garments.
30 min: Perfect for garments very difficult to dewrinkle.

STEAM **eco**

30 min: Optimal dewrinkling that saves energy.

QUICK REFRESH

20 min: Quick refresh of fabrics. Removes odours*. Ideal for less frequent washing.

SANITIZE

40 min: Deep sanitizing. Kills up to 99.99% of viruses, bacteria and germs**, significantly reduces allergens*** and effectively eliminates odours.

*Test performed by an external laboratory in 2023, on quick refresh mode – 20 min. **Test performed by an external laboratory on cotton, on sanitize mode – 40 min. ***Test performed by an external laboratory, on sanitize mode – 40 min, the YR/YT20 product reduces and denatures concentrations of dust mite allergens by up to 98%, cat allergens by up to 77% and birch pollen allergens by up to 63%.

YOUR FIRST INSTALLATION STEP BY STEP

1

You have removed the cardboard.

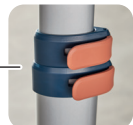

2

You have removed all the packaging and the top cover.

3

Insert the poles into the base [align the arrow at the bottom of the pole with the arrow inside the base].

Make sure that the pole locks are facing inwards.

Make sure that the two base locks are closed.

4

Extend the 2 poles to their middle position and shut the x2 lower locks.

5

Fully extend the 2 poles and shut the x2 upper locks.

6

Install the top cover.

Make sure that the x2 top cover locks are closed.

7

Insert up to 3 garments and close the shutter.

8

Remove the tank.

9

Fill the tank with water.

Switch on Care For You First.
Select your program.
Adjust the length of the program.
Launch the program.

HOW TO GET OPTIMAL DEWRINKLING ?

Using the **STRAIGHTENERS** is essential to get great dewrinkling results.

1

Place your wrinkled shirt on a hanger.

2

Install the straighteners.
The weights stretch the textile. For optimal installation of the straighteners please refer to the instructions [5. How do I position my clothes?].

3

Launch the STEAM program.
The steam relaxes the textile fibres and the tension of the weights removes existing creases.

4

Remove the straighteners. Your shirt is ready to wear !

	STEAM 10-30 min****	QUICK REFRESH 20 min	SANITIZE 40 min
Common textiles (cotton, linen, polyester etc.)	 With 2-5 straighteners depending on each garment	 No straighteners	 No straighteners
Delicate textiles or those that lose their shape (silk, cashmere, wool, light t-shirts etc.)	 Straighteners are not recommended	 No straighteners	 No straighteners
Excluded textiles (leather, fur, suede)			

****20 minutes is recommended for optimal results on most clothing.
