FAN HEATER Box IP21

Unold 86450 electric space heater Indoor Grey, White 2000 W Fan electric space heater:

Because the FAN HEATER Box IP21 is drip-proof, it can also be used in bathrooms or toilets. With 1,800 to 2,000 watts, it quickly ensures pleasant room temperatures. These can be continuously adjusted via a thermostat. There are four levels - off, ventilation, warm air, hot air. And with the 70° oscillation, the air is distributed perfectly. Safety shutdown (as tip-over protection) and overheating protection ensure safety, the practical carrying handle and the covered controls are further features that are accompanied by a modern design in white/gray.

This product is only suitable for well-insulated rooms or for occasional use.
